

Year 4 *First project*

Studies of snowy forests with wildlife

As an introduction to Year 4 the boys will make a card collage to help gain a basic understanding of perspective, toning and shadows as well as picture composition.

While being guided on how to make their collage, the boys are also encouraged to personalise the picture in some way unique to themselves.

On completion the class will also draw a series of wildlife animals from rabbits, to bees, to squirrels in a variety of media following simple construction techniques.
